Re: United States Cellular Corporation

WT No 12-69

WT No. 12-268

Dear Ms. Dortch:

In accordance with Section 1.1206 of the Commission's rules, 47 C.F.R. § 1.1206, we hereby provide you with notice of an oral ex parte presentation in connection with the above-captioned proceedings. On November 26, 2012, representatives of U.S. Cellular including Mary Dillon, President and CEO; LeRoy T. Carlson, Jr., Chairman; Michael Irizarry, Executive Vice President & Chief Technology Officer; and the undersigned, along with Joseph Hanley, Senior Vice President of Technology, Services & Strategy for Telephone & Data Systems, Inc., met with FCC Chairman Julius Genachowski and his Legal Advisor Renee Gregory.

During the course of that discussion, we discussed the points summarized in the attached presentation and urged the Chairman to schedule a vote on an interoperability rule for the January 2013 Open Meeting.

We also stated that we believed a solution to the roaming issues surrounding interoperability could be resolved by the implementation of software-based solutions.

We also expressed support for efforts to avoid future interoperability problems in the 600 Mhz proceeding and indicated that we would be filing comments in that proceeding.

We also urged that the Commission work with broadcasters and the wireless industry to identify ways to clear existing Channel 51 operations to foster the rapid deployment of band class 12 devices in markets where Channel 51 operators are present.

Sincerely,

/S/

Grant B Spellmeyer, Esq.  
Executive Director – Federal Affairs & Public Policy

CCs to:

Hon. Julius Genachowski  
Renee Gregory, Esq.
